

### ***Call for abstracts***

Participants who would like to contribute with an oral or poster presentation must submit an abstract for consideration of the Reviewing Committee (RC).

The RC will determine whether the abstract should be accepted for presentation.

The presenting author should ensure that all co-authors are aware of the content of the abstract before submission.

The abstract should be self-contained on one single page and in English, targeted at the named topics.

The participants will receive the acceptance or denial of the proposal in the second week of May.
