Postdoctoral Position in Condensed Matter Theory

The Condensed Matter Theory Group at the University of Cincinnati seeks to fill one or more postdoctoral positions to begin in Fall 2010. The positions would be associated with Carlos J. Bolech and Nayana Shah. Other CMT faculty include T. Beck, M. Ma, F. Pinski, and R. Serota. The targeted areas of research involve strongly correlated solid-state, nano-scale, and atomic systems. The position requires a doctoral degree in physics or a related subject and research experience related to the areas of interest. Applicants should provide a curriculum vitae and a brief statement of research interests, both to be uploaded at <<http://www.jobsatuc.com>> (position number 29UC5405). They should also arrange for three letters of recommendation to be sent to <ucphysics@uc.edu>, preferably in pdf format. The e-mail subject should start with "CMT postdoc search 2010" and include the name of the candidate. Any questions about the position can be directed to the same e-mail address. The selection process will start on **December 7th, 2009** and continue through the winter. For full consideration, applications should be completed before the deadline. *The University of Cincinnati is an affirmative-action equal-opportunity employer.*
